

1 Declaration of Conformity

Description

Vision Air is fully validated software for acquisition and analysis of data from Metrohm NIRSystems analyzers. As integrated software, Vision Air includes tools for near-infrared analysis such as: Data Acquisition with instrument drivers and a Routine Analysis function with extended charting options.

Vision Air Pharma versions are compliant with 21 CFR Part 11 regulations and ready to use in the cGMP environment.

Vision runs under Windows™ 7, 64-bit and Windows™ 10, 64-bit operating systems.

Technical specifications

Technical specifications are defined in the software tutorials.

Software validation

Vision Air was validated with respect to functionality, analytical performance, and accuracy of results. The software functions are documented in accompanying software tutorials supplied with Vision Air.
