This documentation has been prepared with great care. However, errors can never be entirely ruled out. Please send comments regarding possible errors to the address above.

1 Purpose

This document describes the fixed bugs and problems as well as improvements in the following new software versions in comparison with the previous versions.

- New: 2.0.2.25
- Old: 2.0.1.19

2 New features

Topic	Description
New hardware	Support of the DS2500 Multisample Cup for automated measurements in reflection.

3 Improvements

Topic	Description
Login/logout events	Update of event strings to differentiate login/logout events between Vision Air Routine and Vision Air Manager.

5 Compliance

The current software version does not contain any modifications that affect conformity of Vision Air regarding 21 CFR Part 11 and GAMP.
