5   Known bugs

Vision Air

Topic	Description
Wavelength certification test	The wavelength certification test does not use the correction files from the USB flash drive. Instead, Vision must be used to perform the wavelength certification test.

Vision Air Pharma

Topic	Description
Wavelength certification test	The wavelength certification test does not use the correction files from the USB flash drive. Instead, Vision must be used to perform the wavelength certification test.
Signing rights	The user roles **System Administrator** and **Instrument Manager** in Vision Air Local Pharma share the same signing rights. Activating signing rights for one of these user roles activates the signing rights automatically for both user roles.

6   Compliance

The current software version does not contain any modifications that affect conformity of Vision Air regarding 21 CFR Part 11 and GAMP.
